Elite Technical®
Innovation, Technology and Talented People.

CAPABILITY STATEMENT

Verified IT and engineering talent *for federal missions and their primes*

COMPANY OVERVIEW

Since 1992, Elite Technical has recruited and placed IT and engineering professionals for federal agencies, the prime contractors and systems integrators that serve them, and state governments. Every requirement is reviewed by a senior technical recruiter, and every candidate is interviewed and verified before submittal, with documented right to represent (RTR).

As a certified Woman Owned Small Business, we help primes meet small business subcontracting goals without trading away delivery quality.

CORE COMPETENCIES

- **Contract staffing** for single key positions or full teams
- **Contract to hire and direct hire** placement
- **Key personnel for proposals:** qualified resumes and signed letters of commitment
- **Rapid ramp** after award to meet task order start dates
- **Incumbent continuity** through contract transitions and recompetes
- **Teaming and subcontracting** with prime contractors

TECHNICAL DISCIPLINES

- Application modernization
- Cybersecurity and RMF
- Cloud and DevSecOps
- AI and data
- Systems and network engineering
- Program management and operations

DIFFERENTIATORS

- **Verified before you interview:** recruiter screen, recorded InterviewMyCandidate video interview, identity check against photo ID, and time stamped RTR on every candidate.
- **Proprietary database** of 125,000+ screened technical professionals, including candidates who hold active clearances.
- **Senior technical recruiters** review every requirement, labor category and place of performance before sourcing begins.

PAST PERFORMANCE

Unisys, FDIC Infrastructure Support Services
Supplied 51 technical professionals on a $300 million, five year infrastructure contract.

L3Harris, MyFloridaNet 2
Supplied 18 voice and data professionals for Florida's $700 million network upgrade.
