If your organization is looking to gain a competitive advantage or desires a more flexible and comprehensive staffing solution, contact Elite Technical today.

Our Core Capabilities:

Elite Technical provides IT contractors who support every stage of technology development and delivery required for our client's business cycle. As the need for information technology escalates in every aspect of business, Elite partners with clients in the federal space to insure that every skill requirement is in place for needs assessments, planning, design, development and the maintenance of computer hardware, software and network functions.

Strategic Support:

Harness our experience in talent acquisition. Introduce our strategies into your organization and you will dramatically increase your candidate quality; shorten hiring lifecycles and lower costs per hire. Our strategic support offerings include:

- Requisition lifecycle management processes
- Recruitment process consulting
- B2B Gateway for proposal/capture support
- Vendor optimization/integration
- Robust MSP Solutions

Tactical Interface:

Experienced, pre-screened, skill matched consultants are drawn from our extensive national database to support timely turn-key project solutions, new systems development, auditing, upgrading or staff augmentation for existing systems. Elite Technical can assist you with skilled professionals in the following areas:

- Information Security Engineers (ISSE)
- Network / System / Design Engineers
- UNIX / Solaris Engineer
- Window System Engineer
- SANs / NAS Storage Engineer
- Reliability Engineer
- Desktop Support
- Technical Writers
- Enterprise Architecture (Oracle EBS)
